TERRA

Following the trend of natural wood finishes, Moldart introduces a range of six different profile shapes in eight soft tones.

Their appearance makes them fit in any environment, from classic to modern style.

Perfil produzido em madeira ayous. / Profile produced in ayous wood.	

8cm - 12cm

A close-up photograph of a metal decorative element, likely a hinge or latch. The metal is dark and polished, showing intricate scrollwork and a central locking mechanism. The design is symmetrical and ornate, with a central vertical axis. The metal has a slightly weathered appearance with some visible wear and tear. The background is a plain, light-colored surface.

			PERFIL / PROFILE 099767 LINHA / LINE QUIMERA DESCRIÇÃO / DESCRIPTION Perfil produzido em madeira pinho juntado. / Profile produced in finger joint pine wood.	

A close-up photograph of a wooden door handle. The handle is made of light-colored wood with a visible grain. It features a decorative metal band with a repeating pattern of small, raised rectangular elements. The handle is mounted on a dark, textured surface, possibly a door or wall.

A close-up photograph showing the teeth of a wooden gear on the left meshing with the teeth of a metal gear on the right. The wooden gear has a light brown, grainy texture, while the metal gear is silver and polished. The meshing area is in sharp focus, showing the contact between the two materials.
